

## Detestations

I'm not Claustrophobic. I'm not frightened of small spaces.

Nor am I a Sociophobe 'cause I love going places.

I do not suffer from Aerophobia as I adore flying.

Thanatophobia? No! Not worried about death or dying.

Selachophobia? A little maybe, I'm not a fan of sharks.

Cynophobia? Nah, not worried about dogs and their barks.

I'm not Veriphobic. I have no qualms with worms.

A little Mysophobic? Sure. Who really does likes germs?

Felinophobia is an awful fear of cats. I'm not like that!

Chiroptophobia-one who fears bats...I've seen the stats!

Xenophobia, Hydrophobia, Photophobia. But wait there's more!

Herpetophobia, Bibliophobia, there are phobias galore!

Dendrophobia is not my flaw, I love to hug trees.

Melissophobia is my Achilles heel as I'm allergic to bees.

And I'm an Arachnophobe! Spiders I can't abide!

Hairy, creepy, sneaky ones make me want to hide.

What's your greatest fear, oh pray do tell me please?

Are there any in this list that make you want to freeze?
